

# Learning Perl: Some Advanced Topics (Sockets, CGI, DBI, XS)

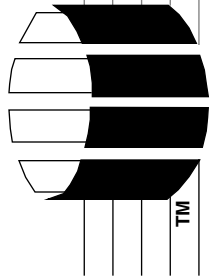

an advanced course by Randal L. Schwartz,  
Stonehenge Consulting Services, Inc.  
and Joseph Hall, 5-Sigma Productions

Version 1.2.2 (1/17/01)[L]

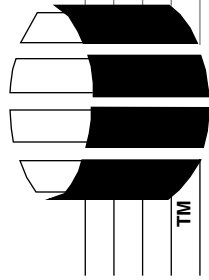

## Table of Contents

<b>Introduction</b>		
What this course is about . . . . .	3	
<b>Sockets</b>		
Being a client . . . . .	5	
Addresses and ports . . . . .	6	
Quick guide to IO::Socket::INET . . . . .	7	
A simple connection to a known server . . . . .	8	
The daytime client . . . . .	9	
Was it really that simple? . . . . .	10	
Getting the home page . . . . .	11	
Being a server . . . . .	12	
But how do we handle the call? . . . . .	13	
The simple daytime server . . . . .	14	
Advantages and disadvantages of simple server . . . . .	15	
So let's make this a forking server. . . . .	16	
Pros and cons of a forking server. . . . .	17	
A better example of a forking server: a rot13 server . . . . .	18	
A rot13 server using select. . . . .	19	
About that select server . . . . .	20	
Per-connection data . . . . .	21	
Other things about sockets . . . . .	22	
Exercises . . . . .	23	
<b>Exercise Answers</b> . . . . .		24
Exercise answers (continued) . . . . .		25
<b>CGI.pm</b>		
Input to a CGI Script: GET Method . . . . .		27
CGI.pm. . . . .		28
Finger Gateway . . . . .		29
User Input and Your Safety . . . . .		30
Forms . . . . .		31
Form for Finger Gateway. . . . .		32
Input to a CGI Script: POST Method . . . . .		33
How the Browser and Server Interact . . . . .		34
Sidebar: HTTP . . . . .		35
The Dynamic Form—Form and Script Together. . . . .		36
CGI.pm HTML Shortcuts . . . . .		37
The Dynamic Finger Gateway. . . . .		38
The Dynamic Finger Gateway (cont'd) . . . . .		39
Testing and Debugging CGI Scripts . . . . .		40
<b>More Features of CGI.pm</b>		
Object-Oriented Interface . . . . .		42
Named Argument Syntax. . . . .		43
Manipulating Parameters . . . . .		44

HTML Generating Functions.....	45	Issuing SQL Commands with do.....	70
Extra attributes for HTML.....	46	Using Placeholders with do.....	71
Generating HTML for tables.....	47	Issuing SQL Commands with prepare and execute.....	72
Generating HTML for tables (illustrated).....	48	Handling Errors in DBI.....	73
Generating HTML for forms.....	49	Throwing Exceptions for Errors.....	74
Generating HTML for forms (illustrated).....	50	An “Adventurous” Example.....	75
Generating more HTML for forms.....	51	An “Adventurous” Example cont’d.....	76
Generating more HTML for forms (illustrated).....	52	An “Adventurous” Example illustrated.....	77
Generating more HTML for forms (illustrated).....	53	Creating Tables.....	78
<b>Working with Databases</b>		Creating Tables cont’d.....	79
Manipulating text databases.....	55	Running Queries.....	80
Rewriting text databases.....	56	Running queries cont’d.....	81
In-place editing from the command line.....	57	Running queries cont’d.....	82
Working with multiple text files.....	58	The Adventure Game.....	83
Reading from several text files.....	59	The Adventure Game cont’d.....	84
Producing a report.....	60	Running the Adventure Game.....	85
Creating DBM files.....	61	MySQL—a More Powerful Database Engine.....	86
Working with DBM files.....	62	Connecting to a MySQL Database.....	87
Working with DBM files (cont’d).....	63	Creating Tables in MySQL.....	88
Database Access with DBI and DBD::[driver].....	64	MySQL Data Types.....	89
Connecting to a Database with DBI.....	65	Running Queries in MySQL.....	90
A “CSV” Database.....	66	Running the Adventure Game in MySQL.....	91
Connecting to a CSV Database.....	67	Using DBI with CGI Programs.....	92
DBI Attributes.....	68	Using DBI with CGI Programs cont’d.....	93
Attributes for Database Handles.....	69	Using DBI with CGI Programs cont’d.....	94
		Using DBI with CGI Programs cont’d.....	95

TM

Using DBI with CGI Programs cont'd.....	96	<b>Conclusion</b>
<b>Interfacing with XS</b>		For further information .....
What Is XS?.....	98	
Why/Why Not Use XS?.....	99	
What Is Easy/Hard in XS?.....	100	
What We Will Cover.....	101	
Steps in Creating an XS Module.....	102	
Creating an Interface to a System Function.....	103	
Term: :tcflush.....	104	
Structure of an .xs File.....	105	
An XSUB Definition.....	106	
An XSUB Definition cont'd.....	107	
An XSUB Definition cont'd.....	108	
Building the tcflush XSUB.....	109	
Testing the tcflush XSUB.....	110	
Constants in XS Modules.....	111	
Constants in XS Modules cont'd.....	112	
Adding C Code to an XSUB.....	113	
Adding C Code to an XSUB cont'd.....	114	
Adding C Code to an XSUB cont'd.....	115	
Adding C Code to an XSUB cont'd.....	116	
Linking in Additional Source or Object Files.....	117	
Learning more about XS.....	118
